

2016 CPAC Award (Grade 10)

Recipient: Elaine Ke-Xin Liu

Elaine Liu is a hard-working individual who strives for the best in both academia and extracurricular activities. She is one of this year's recipients of the CPAC Award based on her achievements in her Grade 9 year, where she achieved an average of 96%.

At school, she consistently shows initiative for her learning and always pushes her limits to achieve above and beyond. Since 2013, Elaine has been an active volunteer and youth leader of St. John Ambulance. From volunteering at community charity walks to marching in the CNE Warrior's day parade, Elaine has shown an immense love for volunteering, accumulating over 350 hours of volunteer service.

Through St. John Ambulance, she found a passion in first aid and was selected as one of the 16 youth members to participate in the 2016 Hong Kong International Cadet Camp, an international first aid competition. She hopes to pass down her knowledge of first aid to the younger members and teach them valuable skills for the future.

At school, Elaine is the co-President of the Don Mills Model UN club, which holds an annual Model UN conference that attracts over 150 students across the GTA each year. She is also an executive in her school's DECA club as well, placing 4th in the DECA Ontario competition with her partner this year and looks forward to representing Ontario at the International Career Development Conference in Anaheim, California in April 2017.
